

Year 2 Homework—

Below are a variety of maths questions which your child should be able to do. They may need support to read some of the questions. They also need to label the time on the clock in the middle please.

1 Tick the box with the greatest amount.

Place a cross in the box with the least amount.

2 In total, there are 10 counters. How many counters are in the bag? Show this in a part-whole model and as a calculation.

3 You will be measuring height using non-standard units.

Rosie is _____ rolls tall.

4 = $76 - 43$

Double 44 – sixty-four =
