

Drawing

Here, you can find out how to turn your sprite into a pen, and use loops to make it draw different shapes.

1 Pen blocks are dark green. Click on the Pen menu to see the full list.

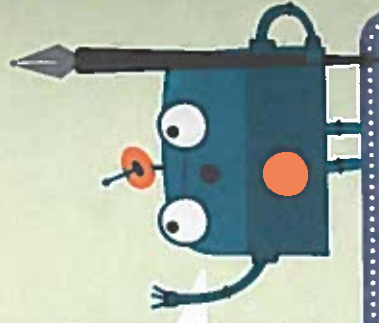

2 To draw using the mouse, start a new project and slot together these blocks.

3 Then click the green flag, and move your mouse around the stage.

The sprite acts as your pen, leaving a trail as it moves around the stage.

USEFUL PEN BLOCKS

This turns the pen OFF.

pen up

This makes the pen thicker or thinner.

set pen size to 3

Size 1
Size 5
Size 10

The bigger the number, the thicker the line.

First click inside the box...

set pen color to

This sets the pen to a particular colour.

...then click anywhere in the Scratch window to choose a colour.

This changes the colour.

change pen color by 10

In Scratch, each colour has a number. Changing the number changes the colour, and repeated changes create a rainbow effect.
